PROFESSIONAL EXPERIENCE

Avis Budget Group

Parsippany, NJ

Cloud FinOps Engineer | Multi-Cloud Cost Optimization

September 2025 - Present

- Architect and deliver multi-cloud FinOps reporting solutions across AWS, Azure, GCP, and OCI, translating raw cost and usage data into executive-ready dashboards used by Finance and Engineering stakeholders
- Automate cloud cost ingestion and allocation pipelines using Python and AWS Athena, enabling showback reporting across 15+ business units and replacing manual Excel-based processes
- Serve as primary analytics partner to Finance leadership for cloud spend governance, providing expert guidance on cost drivers, anomaly detection, and optimization opportunities across a \$30M annual cloud portfolio
- Design and present custom FinOps reporting architectures to senior Finance and Engineering stakeholders, translating technical cost data into business-aligned narratives and actionable recommendations
- Manage cloud cost allocation frameworks across AWS (Cost Explorer, CUR, Athena), Azure Cost Management, and GCP Billing, applying FinOps Foundation best practices for tagging, chargeback, and unit economics
- Partner with Engineering to identify and quantify optimization opportunities including reserved instance rightsizing, idle resource elimination, and storage tier migration - tracking realized savings against forecasted targets

Comcast

Philadelphia, PA

Business Operations Analyst 3, CyberSecurity

September 2022 - October 2024

- Managed post-award financial and operational health for multiple enterprise cybersecurity programs with combined annual spend exceeding \$20M by owning the reporting cadence, variance analysis, and stakeholder communication that kept programs on track
- Owned invoice validation, reconciliation, and variance analysis to ensure programs stayed within budget and forecast assumptions remained accurate
- Built executive-level dashboards and status reporting to surface risks, blockers, and progress, enabling timely leadership decision-making
- Served as a liaison between Finance, Operations, and technical teams, ensuring consistent communication and alignment across fast-moving initiatives

Strategic Data Specialist, Strategic Development

September 2021 - May 2022

- Spearheaded the evaluation and implementation of alternative communication platforms, improving user experience and collaboration across 200+ employees.
- Designed SharePoint product enhancements based on user feedback, driving a 17% increase in site engagement and a 34% boost in unique views
- Conducted product audits to identify friction points, prioritizing features that enhanced usability and team productivity

Customer Experience Analyst, NPS Bus Ops

September 2019 - March 2020

- Audited 500+ JIRA tickets to define key user pain points, created product health KPIs, and surfaced automation opportunities that reduced resolution time and improved team responsiveness
- Developed 26 recurring insights reports that aligned team-level product OKRs with leadership priorities across monthly cadences

CORE STRENGTHS

Financial & Operational Governance: Revenue Validation, Billing Reconciliation, Financial Controls, Compliance, Risk Identification

Tools & Platforms: Excel, Word, PowerPoint, JIRA, SharePoint, Beeline, Salesforce, Smartsheets, ServiceNow, AWS, Azure, GCP, VNDLY, Workday, Tableau, Power Automate, SQL, Sedai, Python

Certifications: AWS Cloud Practitioner (In Progress) Technical Product Management, Project Management Foundations

Cloud Platforms: AWS (Cost Explorer, CUR, Budgets), OCI, Azure, GCP

Core Methodologies: Cross Functional Leadership, Cybersecurity & Compliance, Cloud Cost Optimization, Process Automation, Data-Driven Decision Making, Stakeholder Management, Vendor Integration, Strategic Communication, Competitive Analysis

EDUCATION

Drexel University, LeBow College of Business, Philadelphia PA

Bachelor of Science in Technology Innovation Management & Marketing
